***Allowance***

1. Claims 1-27 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner notes that none of the prior art of record discloses an apparatus or method for interpreting computer system performance measurements comprising: identifying behavioral properties based on measured behavioral data, each behavioral property including behavioral descriptions describing the property and a value representing a degree of relevancy of the behavioral property, generating an analysis, and suggesting what should be done in response. The prior art does not teach behavioral descriptions being used to determine an advice.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The drawings are objected to because the text in figures 1-4 need to be typed instead of handwritten. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the

replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kumamoto teaches a fuzzy inference device which takes into account several variables in order to form a conclusion. Evans and Evans et al teach using attributes of a system in order to reach a solution.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Kim whose telephone number is 571-272-2217. The examiner can normally be reached on Monday-Thursday 10:00-7:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marc Hoff can be reached on 571-272-2216. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9306 for regular communications and for After Final communications.
